

# IAKAT1

Termination kit in shrink technology for single core heating cables for use in safe area

## Termination Kit Ex

- Compact design
- Temperature resistant to 120°C
- Easy and fast to assemble
- Applicable for all heating cables  
Type: CSK

### Description

The IAKAT1 system contains an easy and fast to assemble termination kit based on shrinking technology.

Because of the compact design it is easy to use below the thermal insulation.

The IAKAT1 enables to connect a heating tape with a special cold lead. With this cold lead it is easy to connect to a termination box or a controller box.

The illustrated manual helps for an error-free installation.

### Technical Data

Max. surface temperature:	120°C
Applicable heating cables:	CSK
Cross section:	up to 2,5mm <sup>2</sup>
Length of shrinking tube:	120mm

### Further information

Please consult the termination instructions.

### Ordering Information

Part number: IAKAT1

### Alternative Products

Part number: IAK1EG1

- 32A sleeve for hazardous area

### Further Products

Part number: IAKKE1

- Non-Ex cold lead 1,2m 2,5mm<sup>2</sup>

Part number: AG 101

- Termination box for up to 3 self-limiting heating circuits or 1 single core heating circuit.
