

# IAL3Ex HQSS

Termination Set in shrink technology for hazardous area.

## Termination Set Ex

- Compact design
- Temperature resistant up to 180°C
- Flexible usage
- Applicable for ILH..CF and ILS..NF heating tapes
- Different sets separately available
- 

### Description

The IAL3Ex HQSS contains a very flexible and space saving termination set and is used in hazardous areas.

The usage of a special temperature resistant FEP-Connection cable grants different application possibilities at very high temperatures.

This set is composed of connection and end seal parts. These are also separately available.
